MISSION PATHWAYS

Inspire transformation.

SOFTWARE FOR YOUR MISSION

Mission Pathways is a comprehensive event and group management tool with one purpose – to build an individual's faith journey as they participate, volunteer, and lead.

Event, group, and people data are then converted into actionable insights to help you grow and to make sure no one falls through the nets – and out the door – unnoticed.

We don't replace your church management software, we complement it.

ENCOUNTER

GROW

INFORM

PROFILES

Build a picture of a person's pathway from conversion to deeper discipleship.

OUR STORY

Mission Pathways exists to ignite parish renewal.

Our team has a combined experience of over 50 years serving the Catholic Church through technology. We are active in evangelization and discipleship at our churches, sit on our churchs' leadership boards, work with organizations at the forefront of evangelization, and provide parish evangelization and discipleship coaching.

We are passionate to help parishes thrive. And to support you in building missionary disciples who provide increased time, talent and treasure to your parish.
